PROFESSIONAL SUMMARY

Engineer with a Master in International Business and a multidisciplinary track record across enterprise SaaS, higher education, and B2B distribution. Combines advanced analytics (Power BI, SQL, Python, AI/APIs) with cross-functional execution to deliver quantified outcomes in operational efficiency, customer experience, and commercial performance. Native Spanish speaker fluent in English, with conversational French, Portuguese, and Japanese — a multicultural profile oriented to measurable results in fast-paced international environments.

PROFESSIONAL EXPERIENCE

OBCI: SCIFORMA PPM SOFTWARE | Junior Presales Consultant | Lima, Peru | 04/2025 – 10/2025

Latin American partner of Sciforma, a global SaaS provider of Project & Portfolio Management (PPM) software for enterprise clients across 30+ countries.

- Executed end-to-end SaaS PPM deployments for enterprise clients, coordinating product and technical teams to translate requirements into operational software solutions.
- Delivered Power BI dashboards for enterprise clients that demonstrated measurable ROI and reduced their project management time by 30%.

UNIVERSIDAD TECNOLÓGICA DEL PERÚ | Product & Innovation Analyst | Lima, Peru | 03/2024 – 04/2025

One of Peru's largest private universities, serving 100,000+ students across multiple campuses with undergraduate and graduate programs.

- Led AI-driven Customer Experience (CX) initiatives across multiple academic units, increasing NPS by 85% and student retention by 10%.
- Structured cross-functional AI project outputs into fact-based strategic recommendations, aligning technical and operational teams on shared efficiency objectives.

IMPORTACIONES RUBI S.A. | Commercial Intelligence Analyst | Lima, Peru | 09/2023 – 03/2024

Peruvian importer and wholesale distributor of consumer products, supplying retailers and B2B customers nationwide.

- Developed Power BI dashboards across 50 product lines for real-time operational tracking of sales and inventory, reducing stock-outs by 20%.
- Diagnosed raw commercial data flows and presented executive-ready operational insights to management, informing B2B inventory replenishment strategy.

ADDITIONAL EXPERIENCE

Engineering Intern | T&T Ingeniería y Construcción | Lima, Peru | 06/2023 – 09/2023

Coordinated engineering projects, budgets, and timelines; implemented ISO standards and designed automated systems to boost manufacturing efficiency.

AI Research Intern | Lab. LISV — Univ. de Versailles | Versailles, France | 01/2023 – 05/2023

Performed AI and robotic-vision research with an international team, designing mobile prototypes to assist patients with motor disabilities.

EDUCATION

EAE Business School | Master in International Business (MIB) | Barcelona, Spain | 10/2025 – Present

Master's program covering global strategy, cross-border finance, international marketing, and intercultural management.

Universidad Nacional de Ingeniería | Finance Specialization Program | Lima, Peru | 03/2025 – 09/2025
